

CHICOPEE[®]

Multipurpose Super

The multifunctional industrial cloth that is extra strong

Chicopee[®] True Confidence[™]

Multipurpose Super industrial cloths offer an effective clean without compromising on the strength and integrity of the cloth. Multipurpose Super is suitable for wet or dry cleaning, to perform on almost all surfaces, in almost all conditions. Designed to withstand tough and rigorous cleaning jobs, doesn't rip or shred, and won't leave behind a messy trail of lint.

Multipurpose Super

Low Lint

Solvent Resistant

Heat Resistant
250 °C

Machine Washable

Designed for efficient cleaning of machinery parts and components

Problems

- Low cost rags and paper wipes often lint or tear causing fibres to be spread
- Industrial areas often have tough to clean surfaces that contain grease, oil and dirt, which can cause high consumption of poor quality wipes, adding unnecessary costs to your process
- Rags and paper wipes often appear cheap but poor performance can waste valuable time and money
- Industrial areas often require solvents to ensure the most stubborn dirt will get removed, many cloths and wipes are not resistant to solvents and can degrade or breakdown in use

Solutions

- Multipurpose Super is very low lint, ensuring minimal fibre shedding and reduced risk of complaints or issues further on in your manufacturing process
- The Multipurpose Super features an innovative open weave structure that creates outstanding absorbency and excellent pick up of grease and dirt.
- Washable and fully reusable, for significant cost savings and increased efficiency over disposable rags and paper
- Solvent resistant and therefore fully compatible with your choice of solvent
