About Harrisons Hygiene

Harrisons Hygiene is our broad janitorial offering, which was previously known as Stronghold®. Perfect for a number of applications, whether it's cleaning in Hotels, Restaurants and Catering environments or general building care, Harrisons Hygiene can handle any general cleaning tasks. Check out the entire range to see how it can improve your processes.

HARRISONS
HYGIENE

Chicopee® and Sontara®

At Harrisons, we are proud to be a trusted UK partner of Chicopee® and Sontara®, two of the most established brands in the professional wipes industry, and part of **Magnera Corporation**. Our long-standing partnership reflects a shared commitment to delivering high-performance wiping solutions that meet the evolving needs of businesses across multiple sectors.

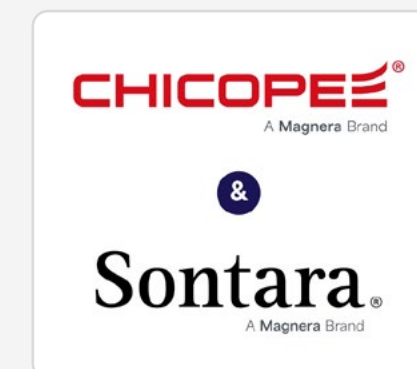

For over a century, Chicopee® has been synonymous with wiping expertise and innovation. From the invention of the J-Cloth® in the 1970s that changed foodservice wiping, Chicopee has become known for their innovative high quality wiping solutions across the foodservice, building care and healthcare industries.

Sontara® complements this legacy with their proprietary advanced fabric technology that results in wipes with exceptional strength, absorbency, and extremely low linting. Sontara's high-performance wipes serve critical applications across industrial, cleanroom, aerospace, and printing sectors, where durability and precision matter most.

130 years of heritage and learning

We have been providing expertise in wiping for over 130 years. In that time, we've guided businesses of all shapes and sizes to implement better practices, create efficiencies in wiping and reduce the overall cost of their operation. Our team of wiping professionals work with your organisation to deliver results, whatever your objective. That's why Harrisons is a trusted and respected name in this industry.

Wet Wiping

Our Wet Wipes

For over 130 years, Harrisons has set the standard in wiping.

Developed with research-driven in-house formulations at a modern manufacturing facility, our wet wipes demonstrate the expertise behind every Harrisons product.

Every wipe is manufactured in the UK, rigorously tested for quality and independently audited to EN standards in a UKAS-accredited laboratory.

That's why we're confident every product meets the highest standards of quality that customers expect of Harrisons.

Working closely with distributors, our wet wipes help organisations across HoReCa, food production, manufacturing and construction achieve cleaner, safer, more efficient operations.

Please use all wipes in accordance with the product label.

Surface Disinfectant Wipes

Surface Disinfectant Wipes maintain hygiene standards by disinfecting hard surfaces easily. Food-safe, fragrance-free and highly effective against bacteria and viruses, these versatile wipes are ideal for daily cleaning.

CODE	COLOUR	GSM	FORMAT	DIMENSIONS	EN STANDARDS	CASE

Sustainable wiping

Innovating for a sustainable future

Whilst family and tradition form the foundation of our business, innovation and sustainability are at the heart of all our decisions meaning that, as our clients grow and the market changes, we're able to scale our offering quickly and effectively. From product development to investment in new plant machinery to internal process audits, we're always exploring ways to improve our sustainability strategy so that we can help our clients meet their own sustainability objectives.
