

CHICOPEE®
VERACLEAN®

Cartex Solvent Plus

The ideal solvent wipe for degreasing

Chicopee® True Confidence™

The ultimate wipe for use while solvent wiping, Cartex Solvent Plus is highly resistant to solvents, and is extremely hard-wearing, making it the perfect solution for pre-paint solvent wiping jobs, the removal of UBC, and paint overspray. The open, coarse structure of Cartex Solvent Plus ensures that contaminants are trapped and contained.

Cartex Solvent Plus

Silicone free

Negligible static

Solvent resistant

The solvent wipe that traps dirt and contamination

Problems

- Many solvent wipes leave solvent extractables behind on the car body or surface in combination with solvent
- Normal wipes often cause static electricity when used on a surface, causing a dangerous situation in a critical environment where highly flammable solutions are very common
- Low cost lighter weight solvent wipes lack bulkiness and will not pick-up contamination from the surface

Solutions

- Cartex Solvent Plus is solvent resistant and has very low solvent extractables, even with the most aggressive solvent, making it the ideal wipe to prepare surfaces prior to entering the paint process
- Negligible static Cartex Solvent Plus wipes ensures your safety while delivering the ultimate solvent wipe for the removal of grease and surface residue
- The unique and bulky structure of the Cartex Solvent Plus ensures that contaminants are trapped and contained

HARRISONS

Set the standard with every wipe

All Veraclean Cartex Solvent Plus wipes are silicone free eliminating surface craters and removing fish eyes.
