Improved wiping and reduced risk

Problems

- For critical tasks it is vital that the process and tools supporting it are up to the job. Using unsuitable wipes can lead to much higher costs further along your process
- When used with detergents, solvents and even water some products will break down very quickly, causing issues of over consumption and potential for defects
- Linting of fibres can cause issues in critical areas, impacting productivity

Solutions

- Chicopee Critical Cleaning wipes are available in multiple colours, both flat and creped. One of our industry experts can review your process and issues and recommend the right wipe for your task
- Veraclean Critical Cleaning Plus are extremely strong both wet and dry and won't fall apart, even when used in combination with detergents, water or solvent
- Veraclean Critical Cleaning Plus are low linting and specially designed for the areas where quality is critical

HARRISONS

Set the standard with **every** wipe

Veraclean Critical Cleaning Plus are available in two forms: flat and creped. The creped wipes are bulkier and have a softer structure for efficient cleaning. All Chicopee Europe Foodservice products have obtained a voluntarily obtained FCC certificate, and can be intentionally used in contact with foods.
