Set the standard with every wipe

HOME OK compost | TÜV AUSTRIA HOME S2445

CRITICAL CLEANING

Sontara EC® Green

- Plastic free wipe certified for home compostability
- Made of 100% cellulosic and renewable raw materials
- Strong and durable for multiple reuses
- Food contact certified for use in hospitality applications
- Available as convenient dispenser box or perforated mini roll

ADVANTAGES

Sustainable
Cellulosic plastic-free wipe, certified for home composting[1] without compromising performance.

High strength
Tough and durable for multiple reuses. Proven to be among the strongest, wet or dry.

High absorbency
Great absorbency of water, oil and solvents - absorbs 8x its weight in water. Excellent for wipe-dry.

Virtually lint-free
Minimizes particle contamination. Leaves behind virtually no lint compared to paper.

Pure
Free of added chemicals, adhesives, and binders - safe for critical cleaning.

Solvent resistant
Compatible with MEK, isopropyl alcohol, and other solvents and cleaning agents.

Sontara EC® Green is a compostable 100% cellulosic version of our high performing Sontara EC® engineered cloths.

Engineered for critical cleaning and environmental responsibility, it is made from 100% renewable cellulosic fibers, plastic-free and certified for home composting. Its ultra-pure production process ensures no added chemicals, adhesives, or binders, making it safe for sensitive environments and minimizing particle contamination.

With excellent absorbency, strength, and solvent resistance, Sontara EC® Green is a sustainable alternative to synthetic wipes, without compromising performance.

PRODUCTION METHOD

- Sontara® technology

CERTIFICATIONS

- **TÜV 'OK Home Compost' Certified**[1]
